Bharat Coking Coal follows closely at 96.57 percent, nearly a two-fold pop that underscored strong appetite for the state-linked offering

August 28, 2026 / 15:09 IST

Sixty IPOs have raised Rs 72,165 crore on Indian exchanges between January and August 2026, according to Prime Database

India's primary market has delivered some spectacular debuts this year, with the strongest listings handing investors gains well beyond what most equities offer in a year.

[Tempsens](#) leads the pack by a wide margin, closing its debut with a listing premium of 110.40 percent, more than doubling investors' money on day one. [Bharat Coking Coal](#) follows closely at 96.57 percent, nearly a two-fold pop that underscored strong appetite for the state-linked offering.

There is then a clear step down to the next tier. INDO-MIM listed at a 44.95 percent premium, edging out CMR Green Tech at 43.44 percent. Dhoot Transmission and Kusumgar clustered together at 37.06 percent and 36.99 percent respectively, a near dead heat. The mid-thirties band continued with BigFoot Retail at 33.51 percent and Lalithaa Jewellery at 31.99 percent, showing consumer-facing names still drew healthy interest. Rounding out the top ten, Laser Power gained 25.70 percent and Molbio Diagnostics closed 21.44 percent above its issue price.
